

Our Beers

Our bestselling Baeren Classic (German Dortmund export lager) got awarded Grand Prix in 2015 in the beer competition held by Japan Beer Journalist Association. "Make the table around the world happy with Baeren beer" is our motto.

In 2019, we opened our second brewery in the same prefecture in northern Japan and newly released some types of canned premium lager beers as you can see on our website. We make not only beer but also traditional style Dry Cider which is made from 100% Japanese local apple with no additives, preservative or coloring. It got awarded the Bronze medal 2 years in a row in the FUJI CIDER CHALLENGE 2020 which is the only and biggest competition for cider in Japan.

Now Baeren beer have been exported to more than 10 countries like the US, Asia and Europe.

うまいビールで食卓をハッピーに!
